

R&A Development Pathway

R&A Clubs & Courses

We have courses for girls and boys of all ages and abilities, including Tots & Mini Pee Wee courses, school clubs, Saturday Super Skills, Sunday Soccer, futsal, Summer Stars and holiday programs.

Next Steps

As part of our player development pathway, children in U6 - U11s who demonstrate talent and potential may be invited to join either our Player Development Training (PDT) or Development Centres.

For girls we have a separate girls invite-only Development Centre.

We also have Goalkeeper Development Centre which is open to any interested players.

Development Centre & PDT

Our **Development Centre** is for our top performing players, offering advanced coaching and high tempo training in a structured enjoyable environment.

Player Development Training (PDT) mirrors this approach while welcoming a broader group of players. It's designed to help children grow their skills and confidence, with the opportunity to progress into Development Centre squads.

Movement between PDT and the Development Centre is flexible and based on ongoing observation. All squads take part in regular fixtures once or twice per term.

We know that children develop at different stages and are committed to reviewing children's development inside and outside of our current squads.

Girls Development Centre

Our Girls Only Development Centre is for talented players identified through our clubs and sessions.

The training is designed to nurture natural ability, build creativity and confidence, and develop skills. All of our squads take part in regular fixtures once or twice a term.

GK Development Centre

The Goalkeeper Development Centre is for any players interested in learning more about goalkeeping. Sessions are designed help players develop a greater understanding of the crucial role a goalkeeper plays.

Futsal

We also offer futsal sessions - a thrilling, fast-paced, small-sided game that emphasizes technical skills and quick decision-making under high pressure. This is a great complimentary addition to training.

What's involved

- Small groups of players allow us to provide focused training
- Training aims to work with children of similar abilities at a higher tempo while maintaining fun and enjoyment
- Helps players improve and reach their full potential
- Offers the chance to progress between squads
- Supports significant improvement in players
- Led by dedicated, experienced and qualified coaches
- Provides the teams with kit to train in each week
